*The mission of Immaculate Conception of Dardenne School is empowering students, through love and virtue, to develop their Catholic faith, their intellect, and a community of one Spirit in Christ Jesus.*

January 27, 2017

Dear ICD Families,

In collaboration with the School Board, Finance Council and the approval of Monsignor Ted, the school has reached an agreement on a tuition increase for next year. Over the last ten years, the average increase for ICD has been 5%. This year's increase will be **2.5%**. Current tuition for one child is \$4,400 and next year; tuition will increase to **\$4,510**. The increase is **\$10 a month or \$110 a year for one child**. Registration costs will remain at **\$150.00**. The registration packets will have additional information regarding tuition; including information on tuition assistance, and 2017-2018 budget. The tuition increase will support our mission through the following:

1. Annual salary increase for faculty and staff
2. \$65,000 is available for financial assistance
3. Funds will be available to maintain the school and increase learning space
4. Continuing to support for academic learning tools such as supplemental materials and technology
5. Increase support for Special Education

We are so grateful for your families' support of ICD. We recognize that financial struggles are a reality of our times and we want to make ICD available to all who want to bring their children here.

We are also grateful to the parish for their continued financial support of the school. The parish provides us a subsidy of around 20% each year, or \$500 per student. To Monsignor Ted, the Finance Council, and the parishioners we are so thankful. The financial support provided by ICD School allows us to continue our mission of developing a community of one Spirit in Christ Jesus.
